We know that the truth unvarnished is not always found in advertisements, and, perhaps, more espe-cially in the advertisements of the merchant who is so anxious to inform you that he never exaggerates Taking them all in all, advertisements will be found very helpful. The merchant naturally selects the best values to mention, and if he does sometimes exaggerate he is not the less telling of his best values. To know of the best values in any store is a great help to shop pers—saving time, trouble and money: therefore, advertisements ARE belpful. GENTLEMEN:

ARE ADVERTISEMENTS HELPFUL

The best values here for you are the Gossamo Merino Shirts and Drawers at 35c. each or three suits for \$2. This underwear was manufactured to soll at 50 cents and is selling elsewhere at that price. We iosed out the balance of the manufacturer's stock at a reduction in price, thus enabling this unexaggerated statement: 50c. QUALITY MEN'S UNDERWEAR POR 35 CENTS. The Shirts, sizes 34 to 42, have the ribbed necks, allk bound and stitched fronts; the Drawers, sizes 30 to 40, have tapes at seams and trouser-shape fronts.

Equally true is it that we are offering warranted Fast Black Half Hose at 25 cents that cannot be duplicated at less than 35 cents. You don't want to know the reaon, only THE FACT. We may also easily prove that the identical styles and qualities of Four-in-hand and Knot Scarfs, reduced

from 46 to 39 cents, are the same as being afered elsewhere at 50 cents Men's Department near, door No. 1119 Pa. ave. THE PALAIS ROYAL.

BUT TWICE A YEAR

Twice annually we surprise our patrons with the Finest Cotton and Cambric Underwear at much less than the cost of materials and trimmings. Semi-annually we are complimented by one of the leading manufacturers of the country, who charges us a nominal price for his samples. The summer season being \$1.00 over with the manufacturer, we are now the happy and proud possessors of a few hundred undergarments, which are in turn to surprise and please our patrons Traveling salesmen are naturally anxious to preserve the beauty of their samples, so that few of the gar ments show signs of handling. The prices we ask are but a slight advance on the cost to us and, we may be pardoned for writing, are complimentary prices made for the benefit of the Palais Royal patrons. Others will understand why we thus write,

\$1.98 FOR \$5 UNDERGARMENTS.

TABLE No. 1-The lot comprises some garment worth less than \$3.98 and few worth more than \$5.68. The Gowns, Skirts, Corset Covers and Chemises are what are termed Bridal Garments-made of fines cambrics and muslins and trimmed with choicest lace and embroideries. But it's not only the best materials that are used-the style is an important feature. Some of the Gowns are fac similes of the imported French garments, whose originality and beauty have won for them distinctive names, notably, the Bernhardt and the Langtry. Ladies of taste will find pleasure in looking over this collection, which, though small, is one of the choicest possible to gather together. Some of the embroideries and laces used on the garments are alone worth nearly three times on lollar and ninety-eight centa.

THE CHILIANS ALERT.

No Doubt That the Esmeralda is

Seeking the Itata. THE CRUISER ARRIVES AT ACAPULCO.

Prospects of an Engagement

With the Charleston.

LATE MEXICAN ADVICES.

Sr. Lovis, May 15.-A special from the City of Mexico says: A dispatch received late last night from Acapulco says: "The Chilian cruiser Esmeralda entered this port yesterday and sailed again today. Several of her officers were

"The officers who came ashere were very reti-cent, but from one of the sailors it was learned that they expected to sight the Itata and act as her escort down the coast. The Esmeralda has a numerous crew and in appearance they are veterans and will fight. The opinion prevsils here that should the Charleston attempt to cap-ture the Itata a naval engagement will take place and the United States cruiser will get the worst of it."

ernment in Chili than that of Balunceda. That was the reason why the cruiser had sailed. The captain of the fishing boat which was nearly run down by a large steamer, which carried no lights, says that after his boat was out of danger a bright, blinding light was suddenly flashed upon his craft and that it was undoubtedly produced by an electric light from a man-of-war. He said further that the vessel was steaming north.

THE ESMERALDA GOES NOBIEL With this fact in view there is but little doubt that it was the Esmeralda going north to intercept the Itata. It is the general idea that should the Esmeralda meet the Itata before she is overtaken by the Charleston the arms that she has and cargo will be transferred. In this case the Charleston could hardly delay the Esmeralda. No proofs would be forthcoming to prove what had become of the munitions of war. This will doubtless be the course which the Esmeralda's cantain will pursue. The transfer of alda's captain will pursue. The transfer of arms being made on the appearance of the Charleston, the empty Itata could be graciously

handed over to it.

If a naval engagement takes place it cannot be delayed, if the Charleston is on the right track, much later than tomorrow, and will doubtless be fought off the coast of the state of A MYSTERIOUS CRAPT.

SAN BLAS TEPIC, May 14 .- A long, low, rakish craft is lying on and off this port with steam up and flying no colors. Fishing boats report her as being manned by a large crew and pro-tected by formidable guns.
